

## 2016 AFS Helicopter Manager Workshop

The Helicopter Manager Workshop requires 24 hours of review and update. 16 hours will be completed in the classroom and 8 hours will come from the following pre-work activities.

Remember that this is **your** workshop. To tailor it to your needs we need to know what you want.

Email a single (or multiple) topic that you would like discussed during agency breakouts or forum discussions. Topics will be compiled and addressed or discussed as applicable. (This is a required task.)

Email: [cstickel@blm.gov](mailto:cstickel@blm.gov)

Complete the following activities:

**IAT**                    [www.iat.gov](http://www.iat.gov)

- A-110            Aviation Transport of Hazardous Materials (if applicable to your IAT training schedule)
- A-200            Mishap Review

Bring a printed copy of your IAT transcript.

**AOPA**                    ([www.aopa.org](http://www.aopa.org))

If you do not have an account, make one (it's free). You will be viewing several selections from this site. To navigate this site: Click on the Education tab, Choose: Online classes then scroll or click through the pages to find the following courses. Watch them and plan on contributing during the units and discussions during the workshop.

- Say It Right, Mastering Radio Communication
- Know Before You Go, Navigating today's airspace
- Weather --- There are several weather options - IFR Insights: Cockpit Weather or any of the *Weatherwise* modules. **Choose one** that is pertinent to your operations and be prepared to discuss it in the workshop.

### **Safecom review**

- Access the Safecom site ([www.safecom.gov](http://www.safecom.gov)) and print one Safecom to discuss in workshop.

### **Pre-Work Test**

Complete the 2016 RT-372 Pre-Work Test and bring it with you.

Thanks for taking the time to make this training requirement great! We look forward to seeing you at the 2016 AFS Helicopter Manager Workshop.
