

Suburban Emergency Response R5 Standard Operating Procedures Pre-work

- Before the first day of class, all students must read the 2013 Fire and Aviation Respiratory Protection Plan and Self Contained Breathing Apparatus Standard Operating Procedures. Once you have finished reading the document answer the following questions.
 - Pre-work is open-book.
 - Bring the completed pre-work with you on the first day of class.
-
1. What size hose line is required when suppressing an engine compartment fire of a pick-up truck?

 2. Which authorities are referenced in the prohibition of facial hair in contact with the face piece seal?

 3. What Personal Protective items are required to be worn with an SCBA?

 4. Only SCBA's meeting which standards may be used?

 5. What constitutes a daily SCBA inspection?

 6. When attacks are made in teams of two, what is the purpose of the third SCBA required on engines?
