TRAINING ANNOUNCEMENT D-110 DISPATCH RECORDER

Dispatch Recorder D-110 is a 16 hour course designed to train potential dispatch recorders on the structure of an expanded dispatch organization and effectively perform within that organization. It will provide the student with a working knowledge of the purpose and process of completing the resource order and other dispatch forms. It will also provide instructions on established dispatch procedures.

DATE: June 15th, 16th, and 17th, 2010 – (Class starts at 1200 hours on the 15th and will end at 1200 hours on the 17th)

LOCATION: CWICC, 3796 Airport Way, E. Wenatchee, WA 98802

Nominations Due: June 9th, 2010

Class Size Limit: 20

Pre-requisites: It is recommended that the student complete I-100 Introduction to ICS or S-110 Basic Fire Suppression Orientation.

Please send nominations to:

Hans Schmidt: hschmidt@fs.fed.us

and

Tina Blodgett: tblodgett@fs.fed.us

FI-210: WILDLAND FIRE ORIGIN AND CAUSE DETERMINATION

Monday, May 17 thru Friday, May 21, 2010

**Spokane County Fire District 10
929 South Garfield Rd, Airway Heights Wa**

Lead Instructor: Dennis Heryford, WA Department of Natural Resources

Course Coordinator: Diana Hernandez - (360) 902-1310

Nominations Due: April 9, 2010

Selection Confirmations: will be sent out by April 16, 2010

COURSE DESCRIPTION:

The primary purpose of this course is to provide a consistent knowledge and skill base for the Wildland Fire Origin and Cause Determination Investigator (INVF). The concepts taught in this course will help an INVF perform at an acceptable level on a national basis without regard to geographic boundaries. The course is presented by lectures, electronic presentations, field exercises, and class discussion.

OBJECTIVES:

- Identify the elements of the NWCG Fire Investigation Certification program.
- Perform the common roles and responsibilities of an INVF involved in an initial investigation environment.
- Practice Wildland fire investigation methods, evidence collection and documentation processes in a realistic environment.
- Identify the laws, regulations and related court procedures associated with administrative, civil and criminal litigation processes.

TARGET GROUP:

Recommended training for experienced fire personnel and law enforcement officers with wildland fire investigation responsibilities.

PREREQUISITES: Law enforcement officer or one year experience as firefighter. There is an interactive self paced pre-course work to familiarize students with the background information necessary to successfully complete the course.

E-Mail or FAX registrations to: diana.hernandez@dnr.wa.gov or fax (360)902-1757

(2/8/2010)

Training Announcement BASIC ISUITE

**Monday, March 8 thru Thursday, March 11, 2010
(Friday, March 12 Optional 0800-1200)***

**Spokane County Fire District 9, Station 92
3801 East Farwell Rd, Mead Wa**

Lead Instructor: Brenda Johnson - (503) 808-6319

Course Coordinator: Diana Hernandez - (360) 902-1310

Nominations Due: Friday, February 12, 2010

Selection Confirmations: will be sent out by February 19, 2010

COURSE DESCRIPTION: This is the full course covering the basics of all ISuite Modules, including Database and Data Administration Modules. Emphasis will be put on the Resources, IAP, Demob, Time, and Cost modules.

TARGET GROUP: Individuals new to ISuite or those with minimal experience who want to assist with incident support.

TRAINEE PREREQUISITES: Students should have basic computer skills and knowledge of the Basic Incident Command System (for your information, the ICS I-100 course is available on-line at http://training.nwcg.gov/courses/i100/ICS_I100_online/ICS_I100_online.html or you can contact me, Diana, for a CD-ROM version). S-260 and S-261 are recommended but not required.

OBJECTIVES: To provide students with hands-on experience navigating the ISuite program and to demonstrate how the different modules work together.

*The course is scheduled to run from 1300 on Monday thru 1700 on Thursday. Friday morning will be reserved for those students wanting additional assistance.

Please complete the attached NWCG Nomination Form and Email/Fax to Diana Hernandez at diana.hernandez@dnr.wa.gov or (360) 902-1757 (fax).

Training Announcement I-300 INTERMEDIATE ICS: ICS for Supervisors and Expanding Incidents

Nominations due November 12, 2010

Minimum number of students: 15

Maximum number of students: 30

This course provides description and detail of the Incident Command System (ICS) organization and operations in supervisory roles on expanding or Type 3 incidents. Topics include ICS fundamentals review, incident/event assessment and agency guidance in establishing incident objectives, Unified Command, incident resource management, planning process, demobilization, transfer of command, and close out.

- Objectives:**
- Describe how the National Incident Management System (NIMS) Command and Management component supports the management of expanding incidents.
 - Describe the incident/event management process for supervisors and expanding incidents as prescribed by the Incident Command System (ICS).
 - Implement the incident management process on a simulated Type 3 incident.
 - Develop an Incident Action Plan (IAP) for a simulated incident.

DATES OF CLASSES: Nov. 29th to Dec 1st 2010

PREREQUISITES: I-200 Basic ICS for Single Resources and Initial Action Incidents

TARGET GROUP: Type 3 Incident Management Team (IMT) candidates, incident middle management (Unit Leaders, Division/Group Supervisors, and Strike Team Leaders), elected officials, line officers, lead dispatchers, Multi-agency Coordination (MAC) members, director heads (public works director, fire chief, sheriff), emergency managers, agency representatives.

EASTERN WASHINGTON INTERAGENCY TRAINING ZONE

Training Announcement **S-190 Introduction to Wildland Fire Behavior** **S-130 Firefighting Training** **(includes L-180 Human Factors in the Wildland Fire Service)**

Registration Due by January 8, 2010

Minimum number of students: 15

Maximum number of students: 25

S-190 Description: This course provides instruction in the primary factors affecting the start and spread of wildfire and recognition of potentially hazardous situations.

S-190 Objectives:

- Identify and discuss the three sides of the fire triangle.
- Identify the environmental factors of fuels, weather and topography that affect the start and spread of wildland fire.
- Describe the contributing factors that indicate the potential for increased fire behavior that may compromise safety.

S-130 (L-180) Description: This course is designed to provide entry level firefighters skills.

S-130 (L-180) Objectives:

- Explain what the LCES (Lookouts, Communications, Escape Routes, and Safety Zones) system is and how it relates to the Standard Firefighting Orders.
- Construct fireline to required standards using various methods.
- Strengthen, reinforce, and use holding actions on a fireline.
- Extinguish the fire with or without the use of water.
- Complete assigned tasks in a safe and efficient manner.
- Given an assignment in a wildfire environment, describe factors in that environment which could impact safety.

Training Announcement **S-190 Introduction to Wildland Fire Behavior** **S-130 Firefighting Training** **(includes L-180 Human Factors in the Wildland Fire Service)**

Registration Due by February 5, 2010

Minimum number of students: 15

Maximum number of students: 25

S-190 Description: This course provides instruction in the primary factors affecting the start and spread of wildfire and recognition of potentially hazardous situations.

S-190 Objectives:

- Identify and discuss the three sides of the fire triangle.
- Identify the environmental factors of fuels, weather and topography that affect the start and spread of wildland fire.
- Describe the contributing factors that indicate the potential for increased fire behavior that may compromise safety.

S-130 (L-180) Description: This course is designed to provide entry level firefighters skills.

S-130 (L-180) Objectives:

- Explain what the LCES (Lookouts, Communications, Escape Routes, and Safety Zones) system is and how it relates to the Standard Firefighting Orders.
- Construct fireline to required standards using various methods.
- Strengthen, reinforce, and use holding actions on a fireline.
- Extinguish the fire with or without the use of water.
- Complete assigned tasks in a safe and efficient manner.
- Given an assignment in a wildfire environment, describe factors in that environment which could impact safety.

Training Announcement

S-130, S-190, L-180 Basic Wildland Firefighter

Nominations due February 14, 2010

Minimum number of students: 12

Maximum number of students:24

COURSE DESCRIPTION:

This course is designed to provide entry level firefighter skills. Certificates will be issued that include S-130 Basic Wildland Firefighter, S-190 Introduction to Wildland Fire Behavior, and L-180 Human Factors on the Fire Line. Course content will include both classroom instruction and hands on field exercises. These courses, along with the pre-requisite I-100, meet the education requirements for NWCG Firefighter Type II (FFT2).

DATES AND TIMES OF CLASSES:

February 26 1800 – 2200

March 6 1800 – 2200

February 27 0800 – 1700

March 7 0800 – 1700

February 28 0800 - 1700

PREREQUISITES:

I-100 Introduction to Incident Command System. This course is available on line at:

<http://training.fema.gov/EMIWeb/IS/is100.asp>

Incident command will be reviewed, but students will need to have completed I-100 prior to the start of this class. A copy of the student's certificate of completion for I-100 should be brought to class. Those without this documentation will not be allowed to participate.

COST:

No cost

Ready Reserve Course

EASTERN WASHINGTON INTERAGENCY TRAINING ZONE

Training Announcement S-131 Firefighter Type 1 & S-133 Look Up, Look Down, Look Around

Nominations due by January 20, 2010

Minimum number of students: 15

Maximum number of students: 25

Description: **S-131** is a prerequisite course for Firefighter Type 1 (FFT1). It is designed to be interactive in nature. It contains several tactical decision games designed to facilitate learning the objectives and class discussion. Topics include fireline reference materials, communications, and tactical decision making. **S-133** is designed to train Incident Commander Type 5 (ICT5) and Firefighter Type 1 (FFT1) to identify environmental factors and indicators of hazardous fire conditions, and how to use these indicators when implementing the Risk Management Process.

Objectives:

S-131

- Demonstrate the ability to use fireline reference tools to facilitate the communication and decision making processes.
- Describe how to incorporate and maintain open lines of communication with appropriate personnel.
- Demonstrate the ability to apply the standard operating procedures found in the Incident Response Pocket Guide (PMS 461).
- Demonstrate the ability to apply information found in the Fireline Handbook (PMS 410-1).

S-133

- Identify seven environmental factors and their respective indicators of hazardous conditions for fire behavior.
- Describe how to use the indicators when implementing the Risk Management Process.

DATE(S) OF CLASS: **S-133: January 27, 2010 S-131: January 31, 2010**

PREREQUISITES: Qualified as a firefighter type 2 (FFT2).

TARGET GROUP: Firefighter Type 1 (S-131 & S-133) and Incident Commander Type 5 (S-133)

LOCATION: **Joint Fire Districts #3 & #8, Barstow**

LEAD INSTRUCTOR: **Bob Hinds, WA DNR, 509-684-7474 (robert.hinds@dnr.wa.gov)**

COURSE COORDINATOR: **Tammi Ellerbroek**

Mail, e-mail or FAX nominations to:

Training Announcement S-131 Firefighter Type 1 & S-133 Look Up, Look Down, Look Around Nominations due by February 10, 2010

Minimum number of students: 15

Maximum number of students: 25

Description: **S-131** is a prerequisite course for Firefighter Type 1 (FFT1). It is designed to be interactive in nature. It contains several tactical decision games designed to facilitate learning the objectives and class discussion. Topics include fireline reference materials, communications, and tactical decision making. **S-133** is designed to train Incident Commander Type 5 (ICT5) and Firefighter Type 1 (FFT1) to identify environmental factors and indicators of hazardous fire conditions, and how to use these indicators when implementing the Risk Management Process.

Objectives:

S-131

- Demonstrate the ability to use fireline reference tools to facilitate the communication and decision making processes.
- Describe how to incorporate and maintain open lines of communication with appropriate personnel.
- Demonstrate the ability to apply the standard operating procedures found in the Incident Response Pocket Guide (PMS 461).
- Demonstrate the ability to apply information found in the Fireline Handbook (PMS 410-1).

S-133

- Identify seven environmental factors and their respective indicators of hazardous conditions for fire behavior.
- Describe how to use the indicators when implementing the Risk Management Process.

DATE(S) OF CLASS: February 17, 18 & 24, 2010 (6:30pm-10:00pm)

PREREQUISITES: Qualified as a firefighter type 2 (FFT2).

TARGET GROUP: Firefighter Type 1 (S-131 & S-133) and Incident Commander Type 5 (S-133)

LOCATION: WVC-North Campus, Omak

LEAD INSTRUCTOR: Jake Townsend, WA DNR-Northeast Region

Training Announcement
S-212 Wildland Fire Chain Saws
Nominations due December 4, 2009

Minimum number of students: 10

Maximum number of students: 20

COURSE DESCRIPTION: Wildland Fire Chain Saws, S-212, is an instructor-led course intended to be presented at the local level. The course lessons provide introduction to the function, maintenance and use of internal combustion engine powered chain saws, and their tactical wildland fire application. Field exercises support entry level training for firefighters with little or no previous experience in operating a chain saw, providing hands-on cutting experience in surroundings similar to fireline situations.

OBJECTIVES:

- List, define, and apply chain saw safety standards as required by OSHA and NWCG member agency manuals, handbooks and directives.
- Incorporate the approved use, maintenance, and function of personal protective equipment (PPE) in wildland fire chain saw applications.
- Identify basic chain saw parts nomenclature, maintenance, tuning, troubleshooting, and safety features.
- Demonstrate field maintenance tasks required for chain saw operation.
- Demonstrate the tactical application of chain saws in brushing, limbing, bucking, and falling for fireline construction and mop up operations.

DATES OF CLASSES:

December 15 @ 0800-December 17 @ 1700

WILDLAND FIRE TRAINING COURSE ANNOUCEMENT

S-212 Wildland Fire Chainsaws

Nominations due April 2, 2010

An NWCG nomination form MUST be submitted for student selection. Call if you do not have access to this form.

Wildland Fire Chainsaws is an instructor led course intended to be presented at the local level. The course lessons provide introduction to the function, maintenance and use of internal combustion engine powered chainsaws and their tactical wildland fire application. Field exercises support entry level training for firefighters with little or no previous experience in operating a chainsaw, providing hands on cutting experience in surroundings similar to fireline situations.

TARGET GROUP: Required training for all wildland fire chainsaw operator positions.

DATES OF CLASSES: May 18 - 21, 2010

CLASS LOCATION: Yakima County Fire Dist. 5, Station 9, Toppenish, WA.

CLASS SIZE: Maximum 20 students

PREREQUISITES: Qualified as a firefighter type 2 (FFT2); current certification in Basic First Aid and CPR.

COST: No fee

COURSE COORDINATOR: Charles Pimms, 509-949-0173

MAIL, E-MAIL OR FAX NOMINATIONS TO:

Training Announcement Ready Reserve S-215 Fire Operations in the Wildland/Urban Interface

Nominations due by January 15, 2010

Minimum number of students: 15

Maximum number of students: 25

Description: This course is designed to assist structure and wildland firefighters who will be making tactical decisions when confronting wildland fire that threatens life, property, and improvements, in the wildland/urban interface.

Instructional units include interface awareness, size-up, initial strategy and incident action plan, structure triage, structure protection tactics, incident action plan assessment and update, follow-up and public relations, and firefighter safety in the interface.

Objectives:

- This course provides students with the skills and knowledge to size-up a wildland/urban interface fire incident, evaluate the potential situation, order and deploy the necessary resources, and apply safe and effective strategy and tactics to minimize the threat to life and property.

DATE(S) OF CLASS: February 1, 3, 8, 10, 22, 24, 27, 2010

PREREQUISITES: Wildland Fire Agencies: Students must be Firefighter Type 1 (FFT1) qualified.

Structural Fire Departments: Students should have completed FFT2 Training.

Students attending this course must be knowledgeable of their agency firefighting policy as it relates to wildland/urban interface fires.

TARGET GROUP: *Wildland Fire Agencies:* This course is required training for initial attack incident commander type 4 (ICT4) and strike team leader (tractor/plow, dozer, engine, or crew).

Structural Fire Departments: This training is appropriate for engine operators, chief officers, and company officers responsible for structure protection in suburban and urban interface areas that may be threatened by wildland fire.

S-270 Basic Air Operations

May 10th-11th 2010

Wenatchee Valley Rappel Base Training Room
3796 Airport Way East Wenatchee, WA 98802

Course Coordinator: Chris Sotherlund csotherlund@fs.fed.us
Phone: (509) 884-2492 Fax: (509) 884-8799

Nominations Due: April 16th, 2009
Selection list will be mailed

Target Group

- Advanced firefighter/ squad leader; those planning to qualify as a single resource boss.

Prerequisites

- S-130, S-190, I-200

Course Description

- The course affords the trainee a survey of uses of aircraft in fire suppression and provides trainees instruction on how to conduct themselves in and around aircraft. The course also deals with management policy, regulations, and procedures, which govern agency aviation operations in fire suppression. It will familiarize the trainee with tactical and logistical uses of aircraft in fire suppression as well as describe the specifications for helicopter landing areas.

Course Objectives

- List the 4 ICS Type of helicopters and air tankers and the criteria that make up each type.
- Be able to identify aircraft makes and models.
- Identify and discuss safety procedures to be followed during flight and while working around aircraft.
- Describe aviation regulations that agencies implement which are more restrictive than the Federal Aviation Administration (FAA).
- Define and discuss tactical and logistical uses of aircraft used by agencies in fire suppression.
- Describe the criteria for determining the effectiveness of a suppressant/ retardant drop and safety procedures to observe during a suppressant/ retardant drop.
- Identify specifications and safety requirements for helicopter landing areas used by agencies in fire suppression.

S-271 Helicopter Crewmember

May 17th thru May 21st, 2010

Wenatchee Rappel Base

E. Wenatchee, WA 98802

Course Coordinator: Chris Sotherlund Phone: (509) 884-2492 Fax: (509) 884-8799

For additional information or questions please contact Chris Sotherlund at csotherlund@fs.fed.us

Nominations Due: April 30th, 2010

Selection list and course information will be mailed.

Target Group

- This training course is designed to meet the training needs of personnel involved in assignments with helicopters. The skills taught in this course will enable an individual to work with a helicopter in performing tasks common to all helicopter operations.

Prerequisites

- Fire fighter type II.

Course Description

- The Interagency Helicopter Crewmember Training, S-271, is designed to standardize basic training of individuals in the knowledge/skills required to work with helicopters. The skills taught relate to fire and non-fire project assignments. No matter what the assignment is or where it is, there are a variety of skills required to accomplish the task.

Course Objectives

- Upon completion of this course, the trainee will be able to demonstrate proficiency in all identified areas of helicopter use to safely achieve efficiency and standardization.

EASTERN WASHINGTON INTERAGENCY TRAINING ZONE

Training Announcement

S-271/A-219 (HELICOPTER CRWEMEMBER)

Nominations due May 7th, 2010

DESCRIPTION: This course covers aircraft types and capabilities, aviation management and safety for flying in and working with agency aircraft, tactical and logistical uses of aircraft, requirements for helicopter take-off and landing areas, fueling, personal protective equipment, contract administration and helibase/helispot organization and operations. This course contains Interagency Aviation Training modules A-101, A-104, A-105, A-106, A-108, A-110, A-113, A-209, A-210, and A-219. **Class size will be limited to 25 students.**

Note: The regulations, procedures and policies addressed in this course are primarily those governing federal agency and ICS operations. State, county, or other political subdivisions using this course will need to consult their agency having jurisdiction with respect to regulations, procedures and policies.

OBJECTIVES:

- Describe the ICS criteria for typing aircraft.
- Describe safety procedures to be followed while working with agency aircraft.
- Describe how density altitude, ground effect and translational lift affect aircraft performance.
- Describe pilot and aircraft certification procedures.
- Describe the importance of flight planning and flight following.
- Describe correct procedures for loading cargo / passengers and emergency landings.
- Describe correct procedures for reporting aviation mishaps.
- Describe tactical and logistical uses of aircraft.
- Describe safety procedures to be followed by ground personnel during water and retardant drops.
- Describe standard target description techniques for directing pilots and indicators of effective water and retardant drops.
- Describe specifications and safety requirements for locating and constructing helispots.
- Identify the skills necessary to work with a helicopter in the performance of tasks standard to helicopter operations.
- Identify required safety procedures related to working with helicopters.

SCHEDULE: This training will start at 0900 hours on Tuesday, June 8, and conclude by 1600 hours on Friday, June 11th. One day (Friday) will be spent in the field; and **PPE will be required.**

PREREQUISITES: Fire Personnel: Qualified as a firefighter (FFT2). Non-Fire Personnel: None

TARGET GROUP: Personnel involved in fire and non-fire project assignments with helicopter.

LOCATION: Colville National Forest, Colville Washington

LEAD INSTRUCTOR: TBD

Training Announcement

S-290 Intermediate Wildland Fire Behavior

Nominations due FEBRUARY 15, 2010

Minimum number of students: 15

Maximum number of students: 30

This is a classroom-based skills course designed to prepare the prospective supervisor to undertake safe and effective fire management operations. It is the second course in a series that collectively serves to develop fire behavior prediction knowledge and skills.

Objectives:

- Identify and describe the environmental, topographical and fuel factors which influence the behavior of Wildland fire.
- Identify and describe the causes of extreme fire behavior, such as spotting, crowning, fire whirls, plume dominated and win-driven fires.
- Assess Fireline data and fire behavior estimations, and identify areas where fire suppression limitations exist.

DATES OF CLASSES: **March 13-14 AND 20-21, 2010**

PREREQUISITES: **Introduction to Wildland Fire Behavior (S-190)**

TARGET GROUP: **Firefighter type 2 (FFT2), supervisory dispatchers (EDSP), and fire effects monitors (FEMO)**

LOCATION: **East Wenatchee, WA – Douglas County Transportation Building
19th Street NW**

Training Announcement – Ready Reserve S-290 Intermediate Wildland Fire Behavior

Nominations due by March 10, 2010

Minimum number of students: 15

Maximum number of students: 30

Description: This is a classroom-based skills course designed to prepare the prospective fireline supervisor to undertake safe and effective fire management operations. It is the second course in a series that collectively serves to develop fire behavior prediction knowledge and skills. Fire environment differences are discussed as necessary; instructor should stress local conditions.

Objectives:

- Identify and describe the characteristics of fuels, weather, and topography that influence wildland fire behavior.
- Describe the interaction of fuels, weather, and topography on wildland fire behavior, fireline tactics, and safety.
- Describe the causes of extreme fire behavior conditions (long range spotting, crowning, and fire whirls) that develop due to weather, fuels, and/or topography.
- Interpret, communicate, apply, and document wildland fire behavior and weather information.

DATE(S) OF CLASS: April 17, 18, April 24, 25, 2010

PREREQUISITES: Introduction to Wildland Fire Behavior (S-190).

TARGET GROUP: Personnel desiring to be qualified as any single resource boss or fire effects monitor (FEMO).

Minimum number of students: 10

Maximum number of students: 25

This is a 24-hour course designed to meet the training requirements outlined in the PMS 310-1, Wildland Fire Qualification System Guide and the position task books developed for the positions of task force leader and strike team leader. Examples and exercises in this package are specific to wildland fire suppression. If students are expected to perform in some other risk area, exercises and examples appropriate to the expected risk areas should be added.

DATES OF CLASSES: April 20-22, 0800-1700 each day

PREREQUISITES: Qualified as any single resource boss.

TARGET GROUP: Personnel desiring to be qualified as a task force leader (TFLD) or any strike team leader (STPL, STDZ, STEN, or STCR).

LOCATION: Spokane County Fire District #9 Training Center
3801 E Farwell, Mead WA

LEAD INSTRUCTOR: Randy Johnson, Spokane County Fire District #4

COURSE COORDINATOR: Jack Gates, Spokane County Fire District #9

Training Announcement S-339; Division/Group Supervisor

Nominations due February 26, 2010

Minimum number of students: 10

Maximum number of students: 25

This course prepares students to perform in the role of division/group supervisor. It provides instruction in support of the specific tasks of the division/group supervisor, but will not instruct students in general management/supervision or in the incident command system (ICS), both of which the student should learn through prerequisite work. Topics include division/group management, organizational interaction, division operations, all-hazard operations, and tactical decision games (optional). There is a final examination in this course.

DATES OF CLASSES:

March 23-25, 0800-1700 each day

PREREQUISITES:

Qualified as a task force leader (TFLD) **OR** qualified as an incident commander type 3 (ICT3) **OR** qualified as an incident commander type 4 (ICT4) and in any two strike team leader positions (one must be STCR or STEN).

TARGET GROUP:

Personnel desiring to be qualified as a division/group supervisor (DIVS).

Training Announcement

S-390 INTRODUCTION TO WILDLAND FIRE BEHAVIOR CALCULATIONS

Nominations due January 8, 2010

Minimum number of students: 15

Maximum number of students: 30

COURSE DESCRIPTION: This course is designed to introduce fire behavior calculations by manual methods, using nomograms and the Fire Behavior Handbook Appendix B. The student gains an understanding of the determinants of fire behavior through studying inputs (weather, slope, fuels, and fuel moisture). The student also learns how to interpret fire behavior outputs, documentation processes, and fire behavior briefing components.

OBJECTIVES:

- List the assumptions, limitations, and appropriate uses of fire behavior prediction models.
- Describe how environmental factors and processes affect fire behavior predictions and safety.
- Define and interpret fire behavior prediction model inputs.
- Calculate fire behavior outputs using available fire behavior processors.
- Interpret, communicate, apply, and document wildland fire behavior and weather information.

DATES OF CLASSES:

February 22 @1200-February 26 @1200

PREREQUISITES:

Intermediate Wildland Fire Behavior (S-290)
Qualified as a single resource boss

LOCATION:

Spokane District BLM
